NO QUARTER

For Captive Natives.

Are Treated as Bandits
and Murderers.

Two Filipino Commands
Surrendered.

Conditions Said to be Greatly
Improved.

News Caused Much Rejoicing at War
Department.

Washington, May 22.—(Spl.)—General McArthur cabled the war department this morning reporting the absolute surrender of two complete Filipino organizations. He says it is the first instance of a surrender of insurgent organizations intact, and he regards it as significant and important. War department officials are highly elated, and sent the dispatch immediately to the White House, where it was read to the President by Secretary Root. All recent reports from the island show a great improvement in the situation. Insurgents seem to be demoralized owing to the great success of American troops. The report of yesterday that 500 Filipinos were routed by 80 Americans, is much commented upon by army officers. It is admitted unofficially that the improved conditions are due entirely to the course recently adopted by showing no quarters to the Filipinos, who are now treated as bandits and murderers. Private advices received at the war department show that there have been frequent executions of captive Filipino bandits. This is, however, only after a trial by a native court and under the regular legal sentence of death. An instance of this is reported from Laon. A gang of insurgents killed nine native police in the town of Bangui, and also killed the President and looted his house. A troop of Third Cavalry, under Lieutenant Thayer, was sent to Bangui at midnight, and caught 37 of the bandits in the President's house. One insurgent threw a knife at Lieutenant Thayer with such force that it stuck into the wall. The cavalrymen tied the insurgents with their lariats and took them to Long. There a trial by native court, by native judge, was given them and they will be dealt with according to the decree of the court. This report from General McArthur this morning said that the surrender to General Wheaton took place at Tarlac. It was at this place that Aguinaldo made his headquarters, prior to operations last fall. Wheaton reports two companies of insurgents, one commander, one captain, one first lieutenant, four second lieutenants, 163 men, with 108 guns in good condition. A small quantity of ammunition was surrendered at Tarlac at 2 p. m. on May 22.

WEAK MARKET

For London Stocks Affected Wall
Street Dealings.

New York, May 22.—(Spl.)—Speculative sentiment seemed to be again somewhat disconcerted this morning by the weakness of the London stock market, and in consequence, declines were common in the opening dealings in this market. These losses average about a half per cent. in the early dealings, but subsequently a firmer tone became general and a number of the opening declines were recovered. Aside from the weakness of the London market, there was nothing of an unfavorable character over night bearing upon the speculation. Private advices received from San Francisco asserted that there was at the moment not a single case of the bubonic plague at that point, but some degree of uneasiness was still apparent in that respect. In as much as the London market was affected by the continued favorable news from South Africa, no attention was paid to it in the local dealings. Interest was very well distributed throughout the market, both the Industrials and the railway list receiving a fair amount of attention. The Granger shares, Atchison, and the Pacific stocks were the leaders in respect of activity in the railway list, and the movements in that direction were fairly uniform. In the industrial quarter, Sugar refining American Tobacco and Continental Tobacco were all notably strong, with nothing that was new attending their course. The local traction issues were also steady with the exception of Brooklyn Rapid Transit. Even in that instance, however, an early sharp decline was subsequently made good.

FUNERAL STOPPED

Because Four Cab Drivers Were Non-Union Men.

Buffalo, N. Y., May 22.—(Spl.)—Striking cabmen stopped a funeral procession yesterday afternoon in which there were four non-union drivers of carriages and asked the men to get down off their boxes. The procession was on the way to a church and when it was reached, the strikers renewed their arguments with the non-union drivers with the result

that when the funeral started from the church for the cemetery there were four less carriages in line than when it left the house. The mourners were very much annoyed and tried to convince the strikers of the wrong they were committing by telling them that the deceased was a union man himself and that his funeral should therefore not be interrupted. The strikers did not see it in that light, however, and felt gratified at their victory. The strike conditions remain unchanged except that a notice has been posted in the C. W. Miller stable, the largest in the city, that unless the strikers return today they lose their positions.

AMBUSHED.

Boers Captured British Squadron—
Very Few Escaped.

London, May 22.—(Spl.)—The War office has received the following dispatch from General Buller: "New Castle, May 22.—8 a.m.—I have received the following from General Bethune, under today's date: 'While on the march in the direction of New Castle, yesterday, one of my squadrons of mounted men was ambushed by the Boers, six miles west of Vryheid, and very few escaped. Capt. Earl Delaware was slightly wounded. My casualties were about 60. I returned to Nqutu for supplies, and will march tonight for New Castle via Dundee.' Gen. Buller adds: 'I detached Bethune, with 500 men, from Dundee, on the 17th, with instructions to march by Vant's Drift, to show his forces in Nqutu, which it was reported had been evacuated by the enemy, preparatory to the return of the Magistrates. Bethune was to rejoin me at New Castle afterwards.'"

CHANGE

Of Officers in Fire De-
partment, No. 1.

C. S. Jost and Harry Manchester Have
Been Promoted.

A change in officers at No. 1 engine house, fire department, was made Tuesday morning by the Board of City Commissioners. As a result of a hearing given this morning, relating to a charge of insubordination preferred against Captain John B. Denions, that gentleman was placed in the ranks, and Lieutenant Chas. S. Jost was promoted to the captaincy of department No. 1, and Harry M. Manchester was made lieutenant. The captain's salary is \$900 a year. Firemen are paid \$720 a year. Mr. Denions has been connected with the city fire department for almost 23 years. He was regarded as a popular and efficient officer. Mr. Jost has been connected with the department for 13 years, and Mr. Manchester for three years. Mr. Denions refused to discuss the matter today, and Chief Manderbach declared himself as being very sorry that he was obliged to resort to such action. It is said, however, that the change is temporary.

N. O. T. Co. Will Build
Line This Summer,

And A. & C. F. R. T. Company
Will Shorten Its Line.

Only Delay Is Selection of Route and
Right-of-Way.

Mr. J. R. Nutt, treasurer of the Northern Ohio Traction company, on Tuesday, informed a Democrat reporter that the Northern Ohio Traction company had decided to build a line to Barberton, but had not decided definitely as to when the work would begin.

"We expect," he said, "to build the line this summer, but have not yet determined upon the route."

Three routes have been surveyed, and it is thought that the selection of a route will be made soon.

It is also announced that the Barberton line of the A. & C. F. R. T. company is to be shortened this summer. President T. F. Walsh was seen at noon today by a Democrat reporter, and he said that the line would be shortened at least a mile. He refused to say anything relative to the route, or plans of shortening the line, giving as his reason the fact that the right-of-way has not yet been secured.

During the struggle Strapp was struck on the head with a beer bottle. His head was cut in two places, and there was also a cut inflicted on his forehead.
